

KIDS' MEALS

Meals on Wheels Program for Children

The economy is struggling and people are going without food everyday. Our innocent children are being severely affected and are in crisis.

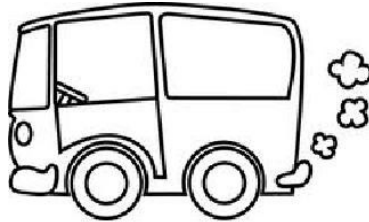

“Texas has the fifth highest food insecurity* rate in the nation, at **28.2%**, or 1,871,600 children living in food insecure homes. (Texas’ overall food insecurity rate is 17.8%),” according to The Houston Food Bank.

*Food insecurity is not knowing if you’ll have enough food tomorrow.

“In Harris County, there is an estimated poverty rate of **16.4%** for individuals, but children under five are disproportionately affected by a poverty rate of **25.7%.**” (CHILDREN AT RISK, Growing up in Houston 2008-2010).

- **Kids’ Meals** is ending hunger among children by delivering over 1,400 daily, nutritious meals to the doors of pre-school aged children living in poverty, free of cost, year-round.
- **Kids Meals** delivered over **343,407** meals to children living in poverty in 2010 with a **staff of 8** and over **9,000** volunteers.
- **Kids’ Meals** has already delivered over **224,712** from January 1, 2011 to July 31, 2011.
- **Kids’ Meals** is on its way to surpass the goal of delivering **360,000** nutritious meals to children in need.

Keep the wheels rolling.
